### ONE MAY WEEK IN SOCIETY.

Dainty Summer Outfits of the Brides and Belles.

THE CORNISH HOUSE WARMING.

Balls, Parties and Receptions-Marrying and triving in Marriage-Society Doings at Lincoln, Fremont and Elsewhere.

The Summer Outfle. A complete summer outfit for a society belle, with a good fat pocketbook to draw from, can be purchased for-well, somewhere in the neighborhood of \$5,000. There are various degrees of completeness for which fact the beiles and brides of Omaha no doubt, duly thankful. A very considerable item is the under-It is all of the finest The little vests which are to be worn under the corsets are of knit silk. They are of every imaginable tint, and match the dress. Some of them are embroidered in a dress. Some of them are embroidered in wheel design, but most of them are edged with real Torchon lace and caught with nar-

with real Torchon lace and caught with narrow ribbons.

Corsets are the shape of the little pointed Swiss belts that lace in the back. They are laced at one side, after they are on, and for slender figures they are very becoming and certainly much cooler than the regulation stiff stays. Many of the girls are simply wearing broad belts instead of corsets, because dresses are not worn tight, and there is no need of being uncomfortable for nothing."

For ball dresses, petiticats are made of white silk or fine mull, with two soft ruffles the entire length, and then for all other occasions they are of fine linen, made with a deep hemstitch and an edging of real lace. There are no flounces, because they would spoil the effect of the plain dress skirts.

Then there is the dainty hosiery, all of silk, of every imaginable shade, with open work on the instep. Two or three dozen pair will probably head of the probably head of the

work on the instep. Two or three dozen pair will probably be sufficient, for of course the Omaha belle does not darn. She will wear a black pair in the morning, for the afternoon drive or walk a pair to match her dress and another pair in the evening to match the dinner or ball dress.

For evening at home she will wear law.

For evening at home she will wear Jossephine gowns. They are all made in the true Empire fashion, without waists, with little trains and skimpy skirts, and each one is provided with a sash, which is tied directly in the back.

They are as yet a little to be advanced for ball room wear, though we are informed that they will be worn next winter. Some of them are of old-fashioned brocade, copied they will be worn next winter. Some of them are of old-fashioned brocade, copied from the kinds worn a hundred years ago. One is a pale pink, with little wild straw-berries and yellow butterfies over it, and this has turned down ruffles of yellow lace about the low neck and puffed sleeves, and a sash of yellow silk. Others are of white mull, of white lace, of baby-blue, and migno-nette green.

nette green.

Ball dresses are numerous. Most of them have white tulle skirts with satin bodices of white, blue, pink or yellow, and sashes to match. One odd dress is of silver tissue made with plaited skirt and an empire waist with a bright, chorry sash fringed and falling atone side. It will attract attention, which, after all, is the chief thing at a ball.

There is another of yellow crepe made with an accordeon skirt and waist, which is extremely pretty, and down one side is a cas-cade of yellow crush roses and leaves. There is a princess of white faille, fitting closely and made with a rather high neck and with

out sleeves.

When this young lady travels she will have a pearl gray mohair with a finely pleated skirt, and a belted waist, which has tucks on the puffed arms and all over the front; and a gray sase of the same material.

A jacket of melton cloth of the same color, with a white goat cloth coat embroidered in silver, and a sailor hat of gray straw, trimmed with white and silver, to be worn with it.

She will have a vinagrette and a chate laine of silver, a gray alligator hand bag, a gray gauze veil and little patent leather shoes

Of course, this is only a start. There are the faus-they are of lace, satin and some of them entirely of wood, with carved sticks them entirely of wood, with carved sticks Her slippers match each gown, and so do her bons, and as many figured silk gowns, and her lingerie includes many of the empire ruchings to wear with them, and Martha Washington fichus.
